**ITEM 36 - SUPPLIMENTARY REPORT FOR ITEM 28 - CUDAL
SHOWGROUND CONNECTION TO SEWER RETICULATION.**

REPORT IN BRIEF

| | |
|----------------------------|---|
| Reason For Report | Clarify policy for connection to sewer mains |
| Policy Implications | Sewer policy - 93/6/98-9 |
| Budget Implications | Nil |
| Annexures | Nil |
| File Number | \OFFICIAL RECORDS LIBRARY\SEWERAGE AND DRAINAGE\DESIGN AND CONSTRUCTION\CUDAL SEWERAGE - 426704 |

RECOMMENDATION

THAT:

1. Council defer consideration of item 28 – Cudal Showground Connection to Sewer Reticulation
2. Re-visit the Sewer Policy to remove any ambiguity relating to the connection/extension to sewer mains in Rural 1 (C) and 1 (A) zones.

DIRECTOR OF ENGINEERING AND TECHNICAL SERVICES' REPORT

Item 28 - Cudal Showground Connection to Sewer Reticulation, recommends council's consideration for financial assistance for the connection of the Cudal Showground to the existing rising sewer mains. The Cudal Showground is in a Rural 1(c) zone and under the current Sewer policy – Sewer Main Extension Rural 1 (c) there is some ambiguity with regards to the subject land complying with the policy.

It is therefore recommended that Council defer consideration of funding assistance until the policy can be reviewed.
